Medical Loss Ratio (MLR)

The Patient Protection and Affordable Care Act (Affordable Care Act) requires insurance companies report their medical loss ratio (MLR) to state and federal agencies, and pay rebates if certain MLR targets are not met. The calculation of the MLR is based, in part, on the size of the insurance companies' employer groups. Based on the information you provide, your group will be categorized as "small" or "large" for the purpose of applying the MLR requirements. This categorization will be used to determine whether your group will be eligible for rebates.

Providing this information does not impact eligibility or participation requirements. Information needed to verify eligibility or participation will be requested separately.

What was the average number of employees employed by your company in the previous calendar year including owners? _____

*Employer groups not in existence last year should base your response on the average number of employees you reasonably expect to employ this year.

Please note: Average must include all individuals owning or employed by the company and any affiliated company in the preceding calendar year, whether an employee was full-time, part-time and/or seasonal. Practically speaking, employees include all those issued a W-2, regardless of hours worked or enrollment in the health plan.

SPECIAL INFORMATION FOR NON-GRANDFATHERED GROUPS THAT VIOLATE SALARY NONDISCRIMINATION RULES AND REGULATIONS (IRS enforcement of this law has been delayed until federal regulations are issued)

The Affordable Care Act requires insured groups comply with Salary Nondiscrimination rules and regulations. Previously these rules applied only to self funded groups. Nondiscrimination testing applies to eligibility, benefits, utilization (actual participation) and controlled groups. Testing failure may require the group to pay excise tax penalties (\$100 per day per impacted person).

Group understands if it performs, or requests the carrier perform any of the following non-exclusive acts, it could implicate the need for Group to perform nondiscrimination testing under section 105(h) of the Internal Revenue Code. Group understands the carrier does not perform nondiscrimination testing and Group assumes all obligations of testing.

- Failure to offer coverage to all eligible employees
- Having too many highly compensated or key employees on the plan relative to rank and file employees
- Failure to provide the same waiting periods to all eligible employees
- Treating employees differently based on age, years of service or compensation
- Contributing a different percentage of premium for different classes of employees
- Providing different benefits for different classes of employees
- Creating any differences in coverage or cost of coverage for any class of employee

Group understands legal and tax implications of all requests it has made to Carrier, and understands if it violates Salary Nondiscrimination rules and regulations group may have to pay excise taxes of up to \$100 per day per impacted person, to be self reported to the Internal Revenue Service.

Claims will not be processed and any sums that might have been paid on a member's behalf will be subject to repayment by Group or Member. I attest that Company should interpret lack of timely receipt of Group's initial premium payment as a request to cancel any attempt to procure coverage for Group. **I acknowledge on behalf of Group that the Group Superuser identified in Section J will login to AccessBlue to pay the Group's first month premium and future invoices to Company.**
33. I attest by having a producer of record on file, I understand my producer can access my group's information.
